Report No. SAT-00245

Wednesday September 29, 2004

POLICY BRANCH INFORMATION

Satellite Space Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

WB Holdings 1 LLC

Date Filed: 09/15/2004 15:26:26:57300

Modification

WildBlue Holdings 1, LLC has filed an application for modification of its authorization to construct, launch, and operate a Fixed-Satellite Service ("FSS") system using Ka-band frequencies at the 109.2° W.L. orbital location. WildBlue requests that its milestone be extended for eighteen months to December 25, 2006. Construction of its first satellite, WildBlue-1, is complete, and it should be ready for delivery this fall after final testing. WildBlue asserts, due to circumstances beyond its control, i.e., the bankruptcy of Space Systems/Loral (Loral), the status of WildBlue-1 is uncertain, which will likely preclude WildBlue from making the arrangements and investments necessary to meet the June 25, 2005 milestone for launch and operation of the satellite. WildBlue seeks to extend this milestone to allow sufficient time to clear the Loral bankruptcy process and arrange for launch of the satellite.

SAT-STA-20040915-00179 E S2160

Intelsat North America LLC

Date Filed: 09/15/2004 18:29:40:16600

Special Temporary Authority

Intelsat North America LLC has filed a request for Special Temporary Authority for 60 days to allow in-orbit testing of Intelsat Americas 8 (IA-8, formerly known as Telstar-8) in the C-, KU- and Ka- bands at 109.2 degrees W.L. Intelsat requests the 60-day period begin upon the launch of IA-8, currently scheduled for mid-November 2004.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 202-418-2555.
